

Recommended Crusade Program Outline

How do I do evangelism? Even before I am asked to conduct evangelism in the IAD or any other division of the world church, I prepare myself.

- I spend time writing sermons.
- I spend time dreaming of how I can be innovative
- I will look at the testing truth that we preach and see how I can be different in my approach, aiming to reach the postmodern minds.
- I spend time with the Word and the text that we frequently used.

Before I move into the area to conduct evangelism, I do not get excited because they think I am the one for the campaign. I meet with the leaders and show them the importance of introspective events and the importance of Personal Evangelism.

This is where evangelistic success is convened.

- Organized action groups.
- Lay training programs

With the church members becoming aware (Most of the time it is just about 65%) of the importance of personal evangelism and the mission of the church, I introduced the Discovery Events and Entry Events.

In other word now that they understand the importance of the priority of evangelism it is time move within the community, work place and among family members.

Stuff I use!

- Prayer Fellowship
- Each one reach one document

My crusade sequence varies according to the length of the campaign. But I do pay particular attention every time to the sequence that I use.

1. Show formulated sequence.
